Daily Necessities Mould & Products

Daily Necessities Mould & Products

Dailai Plastic Mould Company apply Pro-E, Solidworks, U.G., Cimatro and Auto-CAD to mould design and we supply our clients' necessary data: 2D,3D. Our daily necessities mould and products includes: helmet mould, brush mould, shopping basket mould, bathtub mould, chair and table mould, collection box mould, plastic chair mould, tableware mould and so on.

Our company, to a large extent, has reduced the initial investment cost and improved productivity of customs due to our staff's advanced technology.

Daily necessities mould and products have the following features: lightweight and high-strength, smooth surface, corrosion resistance, ageing resistance, undertaking various GRP products processing with customer's materials

1. Major equipment: CNC machining centre、 numerical control milling machine, linear cutting machine, drilling machine, grinding machine, flying cutter
2. Process capability: the development and designing of products、 mold design、 mould making and injection molding processing, 10sets(100 - 300 pairs)/month
3. Name: Daily necessities mould
4. Manufacturing lead time: 30-60days
5. Materials: cavity, core P20, hardness>40hrc , molding board, mould feet 45#
6. Cooling: circulation
7. Post treatment: nitrogen hardening

We can design different flower pattern precisely to ensure the flower texture spliced coherently. We can undertake various GRP products processing with customer's materials.
